

Introducing a Unique NEW Initiative

NATIONALPHONE&DATA

Your Business Communications' Specialists

The Initiative

National Phone & Data was created from an inspiration to deliver modern, feature rich communications to small and medium business, that in the past has only been made available to large corporate clients. Today the technologies made available through National Phone & Data bring the benefits and flexibility of corporate communications to Australian businesses, large and small.

"We believe in choice and flexibility without confusion"

The service

Our service extends further than our products. Our products are a tool used to deliver a complete and appropriate telecommunications package.

- Consultancy on communication requirements
- Implementation project management
- Ongoing support and dedicated account management
- Service level agreements and service accountability

The commitment

Our success is reflected in the satisfaction of our clients.

We ensure the right business solution is clearly explained, implemented with ease and supported with a standard second to none.

The approach

National Phone & Data places an emphasis on building close relationships through recognising the requirements of your business and modelling a tailored service.

You will receive a face-to-face consult from one of our industry specialists, who not only know what is available in the market place, but also what best suits your individual communication needs.

Our dedicated specialists ensure all service requirements are met and we are always available to advise on enhancements or new technology to move your business forward.

> "National Phone & Data has delivered incredible service throughout our relationship," said Colin. "They didn't disappear after we paid the bill like some providers. We no longer have to worry about any of our telecommunications infrastructure. They do it for us." Colin Nicholson - Director, Jones Nicholson Pty Ltd

Why use National Phone & Data?

A Complete Service

National Phone & Data have a specialist team with the skills to advise you on your complete communications needs and provide services including; phone services, phone systems, cabling and electrical, I.T., and office relocation. Alternatively we can "National Phone & Data managed the entire implementation from start to finish," said Clarke. "We had practically no downtime at all. They installed the products and wired it up. They even showed us how to work the phones we acquired when we moved offices. It was a trouble-free installation." Ivo Clarke - Director, KF Plastics

work with your existing team to ensure the correct solution and subsequent implementation is seamless.

We offer a complete, fully managed, integrated communications package for your business. Our service can be used as a phone system replacement, with call transfers between standard phone handsets and PC controlled incoming calls or integrated into your existing phone system. Clients have the option and the convenience of receiving voicemail by e-mail.

Our products have been engineered to be flexible, feature rich and scaleable to your business growth. Our unique service Digital Business Telephony (DBT) enables us to provide you with this flexiblity.

Economical

National Phone & Data delivers its service direct to your business bypassing costly wholesale tariffs. This results in our clients seeing impressive savings in comparison to their current provider.

Using our DBT technology, small and medium business can now take advantage of high quality internet services at reasonable prices.

Multiple connected DBT sites have the advantage of free office to office calls and quality based inter-office networking.

Flexible

We tailor our products to suit our clients current infrastructure and their growing requirements.

National Phone & Data can offer standard telephone services on a national scale even if outside a DBT serviced area.

Fast, reliable internet access

Our high-speed data connections will put an end to problems with downtime and system outages for your business. A true business grade internet service, we guarantee our internet speeds and reliability.

We connect your business directly to our Tier1, purpose built, SLA backed national network.

"The internet service from National Phone & Data has proven to be superior in speed and reliability, putting an end to delays and loss of productivity." Nathan Roffey – State Manager, Classic Resources, Victoria

Internet

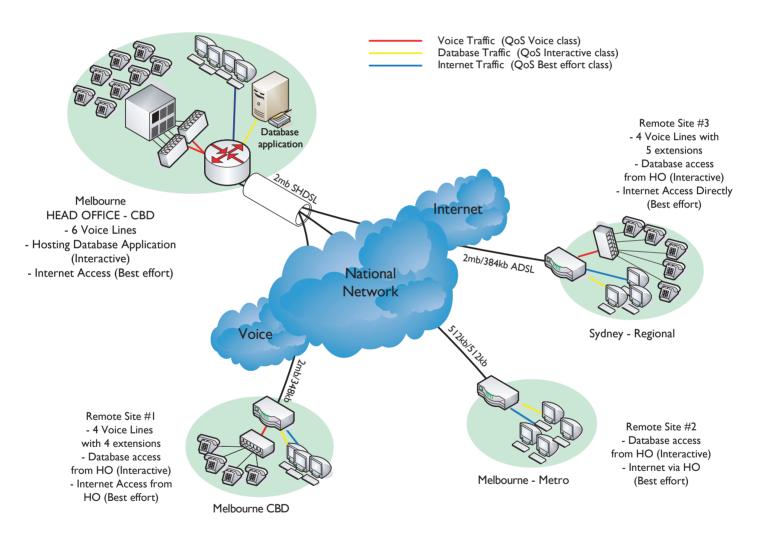

To compliment the above core business services, we provide the option for*;

Voicemail to email. Free calls office to office, Number blocks for direct dial, Call transfers between handsets, Quality of service standard on VPN, SHDSL Internet - same speeds in both directions, Internet speeds superior to traditional ADSL, Analogue or digital IP based service delivery.

Office-to-office networking

We offer flat rate business grade Virtual Private Network (VPN) standard with multiple site offices. All data traveling over the VPN is secure and **does not** traverse the internet. This is a quality service at flat rates.

One easy bill

As an environmentally conscious company, our purpose built billing and account management system has been designed to provide complete electronic billing conveniently emailed to you each month.

Easy to read and easy to understand billing is foremost in consideration of our clients.

"Everything I need is contained in the one bill, set out clearly and itemised," said Scott. "I only have to worry about one payment for internet and phones each month, which is a great time saver." Scott Murray - Director, Scott Murray & Associates

Relocating? Keep Your Numbers

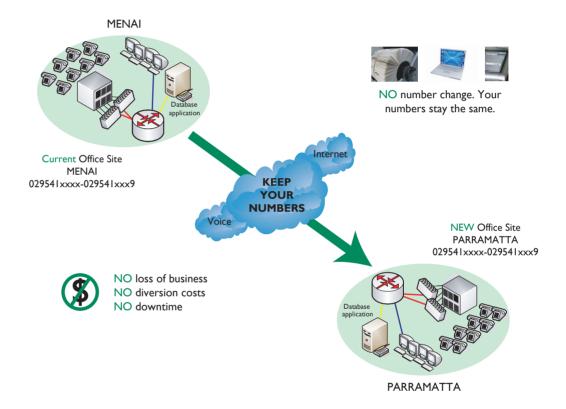

Keep your numbers

Relocate your business within the same city*, and retain your existing phone numbers. We will relocate your existing phone numbers to your new site, even across exchange boundaries, where most providers will force a number change.

People store numbers in their mobiles, teledexs and computers for years on end. Simply put, most people fail to update contact details most of the time resulting in loss of business. Alternatives such as diversions are messy, costly and not permanent.

We alleviate businesses from the number change hassles because we understand that **the ultimate solution is to take your numbers with you.**

KEEP YOUR NUMBERS for no loss of numbers, no diversion costs, no downtime.

* Not all services are available in all locations. Contact National Phone & Data for service prequalification. Terms and conditions apply and are available on our web site, www.nationalphone.com.au/legal.

National Phone & Data is a member of the Telecommunications Industry Ombudsman.
